

STORES CLOSE EARLY AGAIN SATURDAY NIGHT INFLUENZA SITUATION VERY MUCH IMPROVED.

But No Prospects for Lifting
Quarantine for at Least
Another Week.

On account of the seriousness of the influenza epidemic, Commissioner H. D. Huffaker has ruled that all stores close Saturday evening at 6 o'clock, with the exception of the grocery stores, meat shops and market house, which may remain open until 8 o'clock only, and drug stores which are not included in the ruling. The exact number of stores which will be closed will be determined on Monday. In addition to this he has ruled that there be no church services of any kind on Sunday, and that the schools shall remain closed next week, and the quarantine in general be observed.

"FLU" RECEDED AT POST
The influenza epidemic situation at Fort Oglethorpe is greatly improved, according to officials there. The exact number was not available, but it was reported that the number of new cases had greatly decreased. During the past twenty-four hours twenty-one deaths were reported.

Later information shows:
New cases 160
Deaths 27

While the epidemic is showing signs of decreasing in Chattanooga, according to the physicians and the health officials, Commissioner Huffaker and Dr. C. P. Knight say the quarantine has not yet been lifted until the epidemic has let up entirely. From all indications at the general headquarters in the city, the situation is not yet under control. Officials realize the danger in raising the quarantine just when they have the situation under control, which would likely result in making matters worse. Even with the precautions that are being taken by the health officials in stamping out the disease Dr. Knight says that if weather conditions prove to be unfavorable now and the rainy season sets in, that it will more than likely have a serious effect on the progress. The situation is so well under control at the general headquarters that Thursday Dr. Ben Jones, city health director, says that they were able to release three of the army doctors who had been working in the city, and send them back to Camp Greenleaf to report for duty. The doctors who were released are Lieut. Bond, Capt. Denlinger and Lieut. Kurkin. In talking of the work accomplished by the army physicians, Dr. Brown declared that much was due to their efficient efforts.

TO PASS DEFICIENCY BILL

Both Houses to Clear Calendar by Nov. 12.
Washington, Oct. 18.—Congressional leaders today prepared for adjournment of Congress from Oct. 22 to Nov. 12 for over a month. Passage of the \$50,000,000 military deficiency bill by both houses was expected before that time, thus clearing the legislative calendar for the brief vacation. Chairman Simmons, of the senate finance committee, plans now to report the revenue bill before the recess, but as many senators are campaigning in their districts, he regards it as unwise to press consideration until after the elections, when a full membership can be had. The committee resumed its consideration of the measure today, working on our tax sections. Late yesterday it struck out the house provision for taxing the salaries of the president and federal and state judges and the income on state and municipal bonds. Members held that these taxes would be unconstitutional.

BERLIN ADMITS LINE CUT

Berlin (Via London), Oct. 18.—Enemy attacks on the German lines yesterday between La Fere and Amiens resulted in the penetration of the lines at isolated points, army headquarters announced today.

KNOXVILLE SENDS RELIEF.

Knoxville, Oct. 18.—(Special.)—Relief parties and equipment from Knoxville went to Coalfields Friday morning, a mining town where 490 of 600 population are reported to have influenza and death rate very high. Y. W. C. A. will equip diet cottage.

BUTCHERS PROFITEERING.

New York, Oct. 18.—Accused of profiteering, 234 butchers of Manhattan, the Bronx and Brooklyn were arraigned here today for trial before two federal food administrators. Overcharges of from 10 to 15 cents a pound for lamb were alleged. Refunds of all excess profits, fines as high as \$2,000, and the federal food board's "fair price" schedule were to be exacted of all provision men found guilty.

MANY FATALITIES

Influenza Strikes Fort Payne—Epidemic Affects Younger Rather Than Aged.
Fort Payne, Ala., Oct. 18.—(Special.)—An epidemic of influenza is pretty widespread here, but has not proved fatal in any case so far as known. No pneumonia has followed so far, it appears more like the grip, except the young and middle-aged are more susceptible to it than the old-time grip. Old persons appear to be escaping it more than the young, which is unlike the grip.

Cured of a Hacking Cough.

"For some time my little boy now five years old, had a terrible hacking cough. We became very much alarmed about his condition and tried several different cough medicines, but nothing had the desired effect until we began using Chamberlain's Cough Remedy. This was just what he needed. It relieved him at once and by continuing its use for a short time he was well," writes Mrs. Chas. Breybrook, Middleville, N. Y. You may well imagine the grateful attitude of the mother under these circumstances, and that she is certain to recommend Chamberlain's Cough Remedy to her friends, and these personal recommendations account in a large measure for the popularity of this remedy.—(Adv.)

SUSPEND TRADE IN FUTURES.

New York, Oct. 18.—All trading in coffee and sugar futures was suspended today by the board of managers of the New York coffee and sugar exchange "pending the result of negotiations with the federal food administration at Washington." An hour's notice, it was said, would be given prior to the resumption of trading. The exchange authorities said it had been deemed "prudent" to take the action decided upon.

DON'T TAKE SPANISH "FLU"

Take Discolax, which keeps the liver and bowels active and fortifies you against contracting influenza or colds. Comes in the pleasant easy-to-take tablet form. 25c in the box. At your drugist's. Get a box of Discolax now.—(A*)

TWENTY-TWO DEATHS
There have been approximately twenty-two deaths among the civilian population in Chattanooga and suburbs from 8 o'clock Thursday evening up to noon Friday, according to authoritative reports. The number of deaths from 7 Wednesday night up to noon Thursday was estimated at twenty-five. The above does not indicate any material change in the situation so far as deaths are concerned. The general situation, however, is much more encouraging.

TERRIFIC HARDSHIPS AND HEROISM LED TO SUCCESS

GEN. PERSHING'S FORCES
OUTWIT Foe.

Attacking Without Artillery
Preparation, Yanks Took
Enemy by Surprise.

With the American Army Northwest of Verdun, Oct. 18.—The capture of Grandpre by Gen. Pershing's forces was accomplished under terrific hardships and with a heroism not hinted at in the brief official announcement of the taking of this stronghold of the Germans north of the Argonne forest. The Americans took the town primarily by outwitting the enemy, by attacking without artillery preparation, which the Germans had expected, and by wading the river Aisne at four points instead of building bridges, by struggling through almost impassable mud, step by step, until suddenly on top of the amazed Germans and by driving them into a retreat after hand-to-hand fighting.

Had Destroyed Bridges.
The Americans had moved to a point within a short distance of Grandpre and the Germans had destroyed the bridges over the shallow Aisne as they retreated. The enemy obviously expected an artillery fire to precede any further attack, for his surprise was unfeigned when the Americans smashed into his positions.

The American attack began at 6 o'clock in the morning. The men moved forward in the shelter of the forest, reaching the Aisne at four points agreed upon where the stream could be forded.

Without attracting the attention of the Germans, the Americans then waded into the cold water, which reached to their waists and even higher, and pushed across the stream.

Sank Knee-Deep in Mud.
On the northern bank they found broad mud flats into which they sank half way to their knees. The Germans by this time had discovered their approach and opened a bitter machine gun fire, but the Americans pushed steadily on. Beyond the mud banks, which were crossed slowly and with the greatest difficulty, the Americans found the Germans in a closed position in a desperate bayonet hand-to-hand fight. Rifles often were used as clubs and each man struggled to down his individual opponent.

At 11 o'clock the Americans had completely overcome the enemy, had driven him into the woods north of Grandpre and were in possession of the important rail head.

CAUSED HUN PEACE OFFER

London (Via Montreal), Oct. 18.—Marshal Foch a few days ago personally told Field Marshal Haig that it was the British breach through the line at Cambrai that brought about the German peace offer, the London correspondent of the Manchester Guardian says he learned directly, but in a most unquestionable way.

GRIM REAPER CLAIMS LIEUT. JESSE P. HUNT

STRICKEN ON DAY OF HIS
ARRIVAL HERE.

Young Man of Sterling Qualities
Dies Serving Country and
Flag He Loved.

Arriving home last week on a ten days' furlough, Jesse P. Hunt, well-known young Chattanooga, who was recently commissioned a lieutenant in the aviation service, was stricken on the day of his arrival and died Thursday night at 11:40 in St. Joseph's hospital. His illness, which followed an attack of influenza, was responsible for his death.

Lieut. Hunt was a grandson of R. H. Parrent, of 418 Georgia avenue, who reared him. He was a graduate of the Chattanooga High School and attended Georgia Tech. He had planned to take courses in civil engineering, but attendance in his decision to become a missionary. He thereupon entered a theological school at Louisville, Ky., where he was preparing himself for his life work. When America entered the war he took up Y. M. C. A. work at Fort Thomas, Ky., but later attended the officers' training school at Austin, Tex., where he received his commission as a lieutenant in the aviation service. From Austin he was sent to Arcadia, Fla., and thence to Barron field.

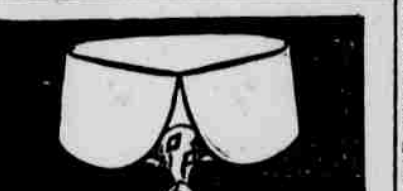

Surviving him are his grandfather, his mother, Mrs. J. W. Johnston; two sisters, Misses Annie Dorier Hunt and Edwin Hunt. He is also survived by Mrs. W. S. Courtney and Mrs. Sam Sykes, aunts on his mother's side; R. H. Hunt, Benjamin and Sion Hunt, uncles, and Mrs. R. S. Hunt, Misses Alice, Ella and Fannie Hunt, aunts, on his father's side.

Funeral arrangements have not yet been announced. The young man will be buried with military honors, and the interment will probably take place in the National cemetery. Miss Margaret Hunt, who is attending the school of nursing in Chicago, will come home for the funeral.

HUNTSVILLE GAINS ON THE FLU

Most Optimistic Report Yet Made There.

Huntsville, Ala., Oct. 18.—(Special.)—At noon today Dr. Carl Grote, city and county health officer, gave out a report which is the most optimistic yet given on the Spanish influenza epidemic here. There were only seven deaths and these were people who had been down with the malady some time and each case had developed pneumonia. Ernest Kartause, oldest son of the firm of Kartause Jewelry company, lies critically low and small hopes for his recovery.

Simple Way to End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it. The way to do this is to use Grandma's Powdered Soap. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.—(Adv.)

Stop Rubbing

It is extravagant and wasteful to rub off twice as much bar soap as you need. Save soap. Use Grandma's Powdered Soap. It is the best soap. Won't harm the skin. The finest children.

DAILY HEALTH TALKS

Better Be Careful About Your Kidneys.

BY N. B. COOK M. D.

Food taken into the stomach goes through various chemical changes, and some of these changes are poisons that must be sifted out and disposed of. It is the duty of the kidneys to do this. When the kidneys do not fully perform their vital work, death may be only a few hours away. Happily, Nature has provided warning alarms telling people when their kidneys are not well. These warnings come in the form of dragging pains in the small of the back, weak stomach, low spirits, chills, nausea, headache, scanty urine and frequent desire to pass it, short breath, numbness, cramps, coated tongue, bad breath, puffs under the eyes, thin blood, dry skin, ringing in the ears, spots before the eyes and many other symptoms. All come from the one cause of kidneys that are not filtering the poisons out of the system. To overcome these troubles, Dr. Pierce's Anuric Tablets, compounded what he calls Anuric Tablets. No other kidney medicine is its equal in giving relief and re-establishing healthful work in the kidneys. The treatment is simple, as you need nothing except water when taking Anuric Tablets—a glass of water with each tablet. This washes and flushes the kidneys while the medicine itself is dissolving the uric acid poisons and driving them out. Anuric Tablets are made double strength, so that they dissolve uric acid the same as hot water dissolves salt or sugar. Most people need Anuric Tablets because most people have uric acid. Better get that poison out of your body for safety's sake, and better begin today.

To gently and agreeably coax the bowels back into normal activity, take Dr. Pierce's Pleasant Pellets. They are just as good for constiveness as his Anuric Tablets are good for kidney disorders, and that is saying a great deal.—(Adv.)

Where Elegance and Quality Meet

All the richness and beauty of Period Furniture is embodied in this Dining Room Suite of superb exquisiteness.
